Title: Public Engagement for Strategic and Implementation Planning	Date: September 11, 2019
Presentation Overview/Action Proposed:	The Boston Public Schools is conducting a public engagement process to ensure that the district's strategic and implementation plans are inclusive of and guided by stakeholder voice. The engagement tour will include a range of opportunities for input and outreach.
Educational and Racial Equity Implications:	The community engagement tour will be designed to encourage participation of traditionally marginalized populations, including scheduling opportunities to participate in all neighborhoods, selecting locations accessible by public transportation, providing interpreters in multiple languages, and offering childcare. This will be critical given the demographic makeup of the district's student population. The strategic and implementation plans must be reflective of all voices of the district.
Policy Implications:	There are no policy implications at this time.
Budget Impact:	The plans to be created with the BPS community may have costs, including plan development and implementation costs. There will be costs for the tour, but these are currently budgeted.
Implications of Yes Vote:	No vote required.
Implications of No Vote:	No vote required.
