Engagement with the Racial Equity Planning Tool (REPT) is an iterative process. The REPT is a living document that guides and documents equity work. The content and language in the REPT will grow and evolve with the work and understanding of the team. Equity work is complex. Our vision is using the REPT as a mediating tool to situate and advance equity for our most marginalized students as Shaw-Taylor designs a joined school community.

**Title:** Shaw/Taylor Merger  
**Date:** April 14, 2023

Was the Racial Equity Planning Tool used? XX Yes ☐ No

If yes, insert date(s) of REPT meetings and link to completed REPT  
Engagement Dates Shaw/Taylor: REPT is in progress as we need to unpack and create a proposal for the identified Core Values

Did a member of the Division of Equity, Strategy and Opportunity Gaps review this statement? XX Yes ☐ No

<tr>
<td><strong>1. Proposal/Presentation &amp; Impact</strong></td>
<td>The Shaw/Taylor merger proposal is an inclusive process that aims to create a safe nurturing environment that aligns with our broader civic goals of equity, opportunity and engagement that values the different cultures within our community and City. Guaranteeing high quality curricula, instruction and career pathways with access to arts, sports, and student government that serves to close gaps and accelerate learning for ALL students. This proposal reflects the ongoing work of the merger team to uplift their Draft Core Values which will inform their desired results and outcomes for the merged school communities. The Shaw/Taylor design team created six buckets that represented their core values: 1. Academic Learning Experience, 2. School Community Feeling, 3. Family as Partners, 4. Enrichment Opportunities and Community Partners, 5. School Community Feeling, 6. Accessibility.</td>
</tr>
<tr>
<td>What are the proposal’s/effort’s desired outcomes, including in eliminating disparities? Who led this work/planning, and do they reflect BPS students’ and families’ group identities (key groups include individuals who are Black, Latinx, Asian, indigenous, immigrant, multilingual, and have Special Education experience)?</td>
<td>The school community e.g. students, families and the broader communities were engaged in this process via surveys (Shaw/Taylor Partnerships, Shaw Student Survey: School Partnerships Feedback, Taylor Student Survey: School Partnerships Feedback and the Shaw/Taylor Design Team Update Outreach), a virtual and a community meeting to provide feedback on the core values that the design team created. As a result, the design team is finalizing their desired results and outcomes for the school merger. Most importantly the merged schools are focused on closing gaps of their most underserved students; Black, Latinx, English Learners and Students with Disabilities while also accelerating the learning of all students.</td>

linguistic demographics of each school. Additionally, the Office of Opportunity Gaps, the Office of Capital Planning and members from the City meet weekly with the design team and their racial and linguistic representation also represents the demographics of the Shaw and Taylor communities.

| 2. **Alignment with the Strategic Plan**  
**How does the proposal/effort align with the district’s strategic plan?** | This iterative engagement process aims to align with the following components of the strategic plan:  
- 2.3 Provide rigorous culturally and linguistically affirming curriculum and instruction that includes learning opportunities in the arts, science, literacy, world languages, physical education, health education, and civics, access to athletic programs and technology, and fully integrates student wellness into the educational experience.  
- 2.6 Reduce chronic absenteeism by ensuring that students are welcomed into joyful and engaging classrooms and where their unique needs can be met.  
- 2.7 Make every school a safe space for every BPS student, offering the support and protection needed to learn, grow, and thrive  
- 3.3 Welcome and value all families and students in our schools, including them as partners in school improvement and student learning.  
- 3.7 Engage families and community to understand needs and engage in shared decision making through texts, online, surveys, and calling.  
- 4.1 Fund all schools in a manner that meets the unique needs of the students they serve, with consideration given to English Learners, students with disabilities, economically disadvantaged students, students at risk of dropping out, off-track youth and other historically marginalized groups.  
- 4.3 Uphold a standard of organizational effectiveness and excellence to ensure that we are meeting students’ needs and define the foundational academic and support services that every school must provide.  
- 4.4 Make substantive progress with BuildBPS to create equitable, 21stCentury, safe and nurturing learning spaces and ensure safe, equitable pathways and connectors between schools.  
- 6.1 Connect every student to high quality before and after school, summer, and transition programs, and high school work experiences and internships in order to activate learning, build skills, and develop social capital.  
- 6.5 Engage key partners in decision making in order to guide and develop coherent year round wraparound services, and learning experiences and programming for students. |
3. **Analysis of Data**

*What data was analyzed? Was it disaggregated by race and other key groups? What did it show regarding disparities?*

The merger team analyzed demographic and academic data disaggregated by grade level, race, gender, Language, EL status, ELD Level, SWD. The initial data analysis showed that there were disparities in academic outcomes for students with disabilities at the Taylor with this demographic scoring on average 15 to 20 points lower on ELA and Math MCAS scaled scores. The analysis also identified disparities in chronic absenteeism with specific subgroups. The chronic absenteeism rate for Black, Latinx and Students with disabilities is between 51 and 60% compared to the Taylor which is between 23 and 41%. We will continue to revisit this data and seek additional data as we engage in the planning for the merged school community.

4. **Stakeholder Engagement**

*Who was engaged (quantity, key groups, and roles) and how, and what did that yield? What did students/families most impacted by this proposal/effort say?*

Prior to this iteration of engagement these communities were collaborating: *historical REPT engagement: Office of Opportunity Gaps, Capital Planning Team, Shaw/Taylor parents, teachers, families and students. The broader community meetings were held at Shaw SSC Meeting November 7, 2022, Shaw School Community November 21, 2022 with 20 attendees, November 30, 2022 with 13 attendees, Shaw SSC meeting February 13, 2023, Taylor School Community Meeting February 16, 2023 with attendees, April 4, 2023 with 63 attendees.*

Community engagement began in May 2022, but has been both broader and deeper in recent months. School-based meetings and Design Team meetings include:

- May 17, 2022 - Shaw Community Meeting
- May 17, 2022 - Taylor Community Meeting
- November 7, 2022 - Shaw School Site Council meeting
- November 30, 2022 - Shaw-Taylor Community Meeting
- February 2, 2023 - Planning meeting with school leaders, School Superintendent, and Central Office and Mayor’s office staff
- February 13, 2023 - Planning meeting with school leaders, School Superintendent, and Central Office and Mayor’s office staff
- February 16, 2023 - Taylor School community meeting
- March 2, 2023 - Design Team meeting
- March 9, 2023 - Design Team meeting (REPT training)
- March 16, 2023 - Design Team meeting
- March 23, 2023 - Design Team meeting
- March 30, 2023 - Design Team meeting
- April 4, 2023 - Shaw-Taylor Community Meeting
- April 6, 2023 - Design Team meeting
- April 13, 2023 - Design Team meeting
5. **Racial Equity Strategies**

*How does this proposal/effort mitigate disparities and increase racial and other equity? What are possible unintended consequences? What complementary strategies will further advance equity?*

The proposal being presented is a plan of action to authentically engage in the REPT process to ensure that the agreed upon Core Values are actualized while elevating intentional and targeted strategies to close gaps for our Black, Latinx, EL and students with disabilities. In order to do this effectively, the plan of action includes working with both central office staff, the merger team and our broader school communities to identify specific programming, strategies and resources that will result in actualizing the elevated core values. We are currently in the *concept design phase* of the work, as this is an iterative process, this first stage of the work will inform the proposal to the Boston School Committee to merge Shaw and Taylor school communities.

6. **Budget & Implementation**

*What are the budget impacts? How will implementation ensure all objectives, particularly equity-related objectives, are met? What are the group identities of the implementation team, and will they bring an equity lens?*

As we’re still in the *concept design phase* of the study, there are no budget implications at this time. The team is being very intentional about unpacking each identified core values/desired results and outcomes. The core values will drive implications and implementation of the budget. This will involve engaging the design team and broader community after the vote to shape what needs to occur with each core value/desired results and outcomes.

7. **Accountability & Communication**

*How will impacts be assessed, documented and communicated to stakeholders? Who will be responsible?*

Pending School Committee approval of the proposed merger, the Design Team will shift to meeting bi-weekly in an 8 week cycle that includes 3 Design Team Meetings and a Community Meeting. Additional working groups will be formed which will include racially and linguistically diverse members of each school community. These working groups will work alongside and be supported by key BPS central office departments to plan for a joined school community by engaging in the work identified in the buckets listed below. Throughout, impacts will be assessed, documented and communicated to stakeholders/collaborators.

These buckets include 1. **Shared Core Values** - What are the grounding values of the joined school community to guide the creation of the desired results and outcomes? 2. **Academics, Culture and Climate** (Academic Programming, Enrichment,
Continuum of Services/Inclusion, Before and After School, Assets, Shifts) - What does this academic learning experience look like for our students? What are the assets each school community is bringing? What are the strengths and successes we might build off of? What isn’t working well? What are we ready to release?  3. Budget Planning, Resource Advocacy & Allocation, and Community Partnerships How do we align resources to our mission and desired outcomes?  4. Staffing How will we align staffing to our missions and desired outcomes?  5. Operations How do the operational processes and systems speak to each other and how are they managed to bring out the vision/desired results and outcomes?  6. Preparing for Transition Staffing and Educator Support How do we ensure that students, staff and families transition successfully?
