Unaccompanied Student Emergency Safety Plan

This Emergency Safety Plan can help you identify and connect students experiencing homelessness with immediate and long-term supports. Before starting, remind the student that all of the questions are voluntary and they can choose what to share or not share. If possible, help the student make referral calls and follow up to make sure a connection is made.

Who is requesting support? Student Family (switch to family assessment)

Do you feel comfortable talking to me about what's going on? Yes No

Section 1: Determine if the situation requires an immediate safety response:

1. Are you currently living with a parent, guardian, or foster parent? Yes no sometimes
2. Where did you stay last night? _____
3. How long did you stay there? _____
4. Do you know where you are staying tonight? _____
5. Do you feel safe there? Yes no sometimes
6. Are you ok with me calling your parent? Yes no I don't know

If the student does not have a safe housing plan for tonight, move on to Section 2. If they do, skip to Section 4.

Section 2: Brainstorm together about possible safe housing options for the night. Use these questions to help identify safe people to stay with temporarily.

- Where have you been staying over the past few weeks? Could you stay at any of those places again?
- If transportation wasn't an issue, do you have family you might be able to stay with?
- Do you think any of your friends would let you sleep over tonight?
- How long do you think you could stay there?

If the student or family identifies someone they might be able to stay with, help them call that person and ensure that they have transportation to get there.
If the student or family can't stay with friends or family, move on to Section 3. If they can, skip to Section 4.

Section 3: Identify possible emergency shelter options.

Bridge Over Troubled Waters (617-423-9575) provides emergency youth shelter—download their app or call M-F 9-4:30; Y2Y Harvard Square (currently open, sometimes closes in summer; 617-864-0795) also provides emergency youth shelter— you must call b/w 9-9:30pm to get on the lottery - see their website for details

Over 18 year olds are also eligible to stay at single adult shelters in the area

Section 4: Make sure that wherever the student is planning to stay tonight, they are as safe and prepared as possible. Use these questions as a guide:

1. Where are you going to try to stay tonight?
2. How will you get there?
3. What is your back up plan?
4. Who will you call if it starts to feel unsafe?
5. Is your phone charged?
6. I have these basic supplies—do you need them?
7. If you take medication, do you have access to it?
8. How will you get to school tomorrow?
9. For current and future emergencies, have students download the free [Bridge Over Troubled Waters app](#) and the [211 Boston](#) app to have when they need it.
