

Boston Public Schools

# Boston Student Advisory Council Report

April 12, 2023

We were able to successfully organize a youth town hall and create a setting where equitable, experienced-driven solutions can be created.

- Group discussions addressed core issues of youth violence.
- Students drew connections between major facets of youth life and its connection to violence.
- Discussions will be documented and shared with BPS leadership. We must ensure youth voices are apart of district decision-making.

## Adulthood

This subcommittee dedicated time to interviewing students and adults on their understanding of adulthood. Eventually, the data collected will blossom into a workshop for adults.

## Code of Conduct

This subcommittee is developing a workshop and infographic. Eventually, the workshop will be regularly held throughout school communities.

## Participatory Budgeting

This subcommittee is finalizing details for a Block Party. It's dedicated to a day of fun, mental health support, and community outreach for BPS students.

## Mental Health & Social Media

This subcommittee plans on incorporating mental health stations in our schools. This project is still in its early phases.

## Upcoming Events

Through a six week leadership program, we will be focusing on community service, outreach, and community building. We want our group of students to embrace and invest in their communities.

- **The Division of Student Support will also be offering programming. We will have more on specifics in May's report.**
