

Title of Proposal/Presentation:	Date: October 16, 2019 SY 2019-20 Registration and Enrollment Update
Presentation Overview/Action Proposed:	The purpose of this presentation is to provide an update to the Boston School Committee regarding the Welcome Services departments' progress on registering and enrolling students, including information about data trends. This presentation will also provide insight into Welcome Services' outreach efforts to continue to promote BPS as a first choice for all Boston families.
Educational and Racial Equity Implications:	<p>Welcome Services aims to ensure all families who reside in Boston, particularly those from traditionally marginalized populations, have the information and access they need to register and enroll their young people in quality Boston Public Schools.</p> <p>This report will analyze registration and enrollment trends by race, identify barriers to early registration that disproportionately impact students of color, and highlight Welcome Services' increased summer and year-round outreach efforts. We are committed to ensuring that students of color, English learners, and others from historically marginalized populations register early during their designated priority rounds and thus having access to seats at the district's highest quality schools.</p>
