- District Operational Plan
- FY21 Budget & 3-Year $100M Promise
Community INSPIRED PLAN  Pathway TO A BETTER BPS

VALUES
“JUICE”: JOY, UNITY, INCLUSION, COLLABORATION, AND EQUITY

MISSION
EVERY CHILD IN EVERY CLASSROOM IN EVERY SCHOOL RECEIVES WHAT THEY NEED.

VISION
A NATION-LEADING, STUDENT-CENTERED PUBLIC SCHOOL DISTRICT PROVIDING AN EQUITABLE, AND EXCELLENT, WELL-ROUNDED EDUCATION, THAT Prepares EVERY STUDENT FOR SUCCESS IN COLLEGE, CAREER, AND LIFE.

theory of action

IF we give every student what they need, earn the trust and true partnership of families, community members, and stakeholders through authentic engagement and shared leadership, deliver excellent service to students and families, and provide educators and staff with professional development and clear expectations...

THEN we will become a high-performing, nation-leading district that closes gaps and improves life outcomes for each student.
BPS-DESE MOU

BPS priority initiatives outlined in the MOU:

1. **33 lowest performing schools:** Teaching and learning: Make specific improvements in the district’s 33 lowest performing schools, which will be defined as “transformation” schools.

2. **Equitable access to student supports:** Adopt MassCore as a uniform high school graduation requirement for all BPS schools and reduce chronic absenteeism overall, especially at the high school level.

3. **Supporting students with disabilities:** Increase the percentage of students with disabilities who are served in the least restrictive environment and reduce the disproportionate placement of students of color in substantially separate programs.

4. **Transportation:** Improve the student transportation system.

DESE/BPS supporting initiatives outlined in the MOU:

1. **Teaching and learning:** Prepare a cohort of 15 BPS schools for entrance into DESE’s Kaleidoscope Collective for Learning, a professional development initiative designed to engage students and teachers in deeper learning.

2. **Equitable access to student supports:** Help broker partnerships for schools that do not have strong partners.

3. **Educator diversity and effectiveness:** Help BPS recruit and retain a diverse and effective educator workforce by providing additional staff capacity and developing programs that could include such programs as home buying incentives or signing bonuses.

4. **Facilities:** Provide a DESE employee(s) to work with BPS on upgrading essential facilities such as student bathrooms.

Strategic Plan Commitments and Priorities
$100M in new investments over the next 3 years

Each year, BPS will have more to invest in student supports over and above maintenance cost increases.

FY21:
- Annual Investment
- Investments over FY20
- Maintenance over FY20

FY22:
- Annual Investment
- Investments over FY20
- Maintenance over FY20

FY23:
- Annual Investment
- Investments over FY20
- Maintenance over FY20
While it is too early to report any significant learnings from the current pandemic, it has brought our current challenges into starker relief. As a District we must:

● Address racial and economic inequalities in our schools through differentiated funding;
● Change our approach to instruction to overcome lost learning;
● Add high-quality social and emotional support for students as we recover from this experience;
● Close the digital divide that has limited our ability to deliver high quality remote learning opportunities to all students; and
● Develop new and better ways to connect with and engage families.

COVID-19 has changed the context of our work, but not the direction
Every child, in every classroom, in every school of the Boston Public Schools system has the same opportunity to achieve the greatness within them as anybody else.
We expect Mayor Walsh’s Fiscal Year 2021 Budget Proposal to include an $80M increase for BPS.

New investments directly in school budgets or school services budgeted centrally above and beyond standard cost increase.

Estimates for standard cost increases, including existing student services, cost of new BTU contract and operations.

Proposed General Fund Budget for the Boston Public Schools in FY21.
Improving quality by investing in strategies that change the student experience

The “Instructional Core”

Student

Teacher

Content

Source: Richard F. Elmore
Improving quality by investing in strategies that change the student experience.
Raise the bar on student learning with high-quality learning materials, resources and improved learning environments.

Increase teachers’ skill through coaching and consistent feedback and developing high-quality curriculum.

A strong foundation for student success and more support to connect families to resources and information.
Prioritize strategies with demonstrated ability to improve outcomes for our neediest students

Supporting children and families:

$2.5M  Family Liaisons who reflect the culture and language of the community they serve, to address the needs and questions of families.

$5.6M  Social Workers assigned to schools for a coordinated, multi-tiered system of support to meet the social-emotional needs of our students and families.

$0.5M  Continued Nurse hiring to achieve one nurse in every school.
Supporting students begins by supporting families

New family liaisons will reflect the cultures and languages of the community they are serving. They will:

- Be accountable for meeting the needs of families quickly and with a commitment to excellence.
- Build relationships with the students, families, and school community.
- Connect families with community resources for needs like housing, food, counseling, and more.
- Receive intensive support and training to help families navigate BPS from registration to transportation to social-emotional supports.
Investment Highlight: Coordinated System of Supports

An environment where every child can thrive is the foundation for academic achievement

Social Workers, Nurses, School Psychologists, and Family Liaisons coordinate services and support staff to serve students more effectively in the classroom.

**One-to-One**
Individual counseling support and high-leverage interventions for highest needs students.

**Small Group**
Leveraging partners and staff to provide small group and targeted supports to students.

**Whole School**
BPS SEL Signature Practices support all students by developing culturally-appropriate, positive, whole school rituals, routines, habits, and norms.

A strong foundation for student success

Boston Public Schools

Student
Prioritize strategies with demonstrated ability to improve instruction

Three investments are aligned to deliver higher quality instruction to engaged students who are focused and ready to learn:

$2.2M  Expand access to the Arts, Music, Science, and Physical Education and Health in grades K-6.

$4.6M  School-based Instructional Facilitators for job-embedded PD and Coaching.

$2.0M  High quality, team-based professional development for new supports in schools.
Investment Highlight: Planning, Coaching, and Instruction

Teacher

Leveraging Enrichment Classes to Improve Core Instruction

More Arts, Music, Science, and Physical Education and Health in grades K-6:

▫ Students in selected schools will receive one additional special per week.
▫ Students have more opportunities to explore their passions, to fuel their curiosity, and feel success.

During this period, classroom teachers have more time to collaborate and prepare:
▫ They will engage in coaching and planning with their teams, guided by the Instructional Facilitator.
▫ Facilitators will provide instructional and inclusion coaching support aligned to the curriculum.
Closing gaps by increasing the knowledge and skill of teachers

We are committed to a comprehensive approach to supporting change at the school level:

▪ Instructional Facilitators increase teachers’ skill through frequent coaching and consistent feedback.
▪ Deepen training in teaching strategies to sustain effective use of instructional materials and tools.
▪ School Leadership development to ensure effective use of new staffing and resources.
▪ Team-based professional development including anti-racism and anti-bias strategies for eliminating opportunity gaps and raising instructional rigor.
Expand teachers’ skillset and toolkit

<td><strong>$12,396,084</strong></td>
</tr>
</tbody>
</table>
Raise the bar on quality learning environments, materials, and tools

Re-establish high expectations for the classrooms, bathrooms, hallways, and play spaces that our students deserve, recognizing the impact of the learning environment and resources:

$4.0M  Rapidly expand student access to technology, including 1:1 computing initiative for all grade 7-12 students.

$2.5M  Consistent, high-quality literacy materials and instruction for students in grades K to 8.

$1.5M  Ensure our facilities support learning by adding 25 additional custodians, investing in building condition and cleanliness.
Technology is an essential tool used everyday in a multitude of ways, by everyone, and must be prioritized.

- 58% of BPS chromebooks will be beyond end of life by June 2020.
- Centralize the purchase and management of student technology, including:
  - 1:1 computing for students in grades 7-12.
  - Additional technology for students in grades K-6.
A fundamental shift in the way we approach literacy instruction

Every student deserves to learn from teachers and instructional materials that reflect their ethnic, cultural and linguistic heritage, and prepares them for a life full of choice and opportunity.

- Multi-year roll-out of instructional materials that are aligned with the highest expectations.
- Supporting implementation of the curriculum at the school level through expert coaching, professional learning, and data-driven feedback.
- Adoption of standards-aligned curricular resources for K-8 classrooms.
- Unpacking these curricula through anti-bias screening tools, such as the “7 Forms of Bias.”

</table>
Ensuring Equity & Transparency

- We continue to replicate prior year’s methodology to provide greater comparison over time.
- The analysis demonstrates that we have successfully directed more resources to high need students.
- We are balancing the per pupil equity with a foundation for quality that ensures consistent and high-quality opportunities at all schools.
- We are committed to continuing to increase differentiation.
Last year we completed the district’s first robust analysis on per-student spending.

We found that, overall, we spend more on Black and Latinx students than on White or Asian students.

This reflects the deliberate allocation of resources to students who experience opportunity gaps.
We are investing nearly $21m in schools with the highest need and the lowest academic achievement.

This includes Family Liaisons, Social Workers, Specialists, and Instructional Facilitators, as well as their professional development.

These investments will benefit students with disabilities, English learners, low income students, and Black and Latinx students.
We are making a number of BuildBPS investments in our schools.

The majority of this year’s investments are going to East Boston and South Boston 6th grade expansion.

As these schools tend to be more Latinx and serve larger numbers of ELs, this represents an investment in these students.
New Investments: Secondary Schools

- $30
- $20
- $10
- $-

Equity

- We are making a number of investments in our secondary schools, including:
  - Expansion of rigorous programming, including IB, AP, and Pre-AP.
  - SAT during the day for 11th and 12th graders.
  - Expanding mentoring opportunities for students of color.
  - Making free menstrual products available in all schools.
New Investments: Additional Paras for K2

Equity Impact of Investment, Select Demographics

- We are transitioning all K2 classrooms to have a full-time paraprofessional.
- Our K2 population is more likely to be white and/or an EL student, and less likely to be SWD or low-income.
New Investments: Custodians

- We are adding custodians to a number of schools that do not currently have overnight coverage.
- Small schools, which tend to be whiter and higher income, often benefit more from these types of categorical additions.
We are also making a number of small investments that will evenly benefit all students, such as LGBTQ student support, and Diversity Recruitment.
The net impact of these investments shifts the total share of our spending to our higher needs students. For example, these investments will direct over $200/pp more to students who are low-income than those who are not.
