1. Percentages may not total 100 due to rounding. Students who were absent from any subject area MCAS test without a medically-documented excuse were assigned the minimum scaled score of 200 and a performance level of *Warning* for that subject area. These results include regular education students, students with disabilities and limited English proficient students.

\*\*\* No results were reported because fewer than ten students were tested.

N/A - School had no students in the grade tested.

- Percentages may not total 100 due to rounding. Students who were absent from any subject area MCAS test without a medically-documented excuse were assigned the minimum scaled score of 200 and a performance level of *Warning* for that subject area. These results include regular education students, students with disabilities and limited English proficient students.
  - Starting from 2001 the grade 4 Science and Technology/Engineering and History and Social Science tests were moved to grade 5.
- \*\*\* No results were reported because fewer than ten students were tested.  
N/A - School had no students in the grade tested.

1. Percentages may not total 100 due to rounding. Students who were absent from any subject area MCAS test without a medically-documented excuse were assigned the minimum scaled score of 200 and a performance level of *Warning* for that subject area.

These results include regular education students, students with disabilities and limited English proficient students.

2. Starting from 2001, state had combined McKinley Middle, McKinley Tech. & McKinley Voc. into overall McKinley.

\*\*\* No results were reported because fewer than ten students were tested.

N/A - School had no students in the grade tested.

# Updated with the corrections from State on 6/11/02.

1. Percentages may not total 100 due to rounding. Students who were absent from any subject area MCAS test without a medically-documented excuse were assigned the minimum scaled score of 200 and a performance level of *Failing* for that subject area. These results include regular education students, students with disabilities and limited English proficient students.
- + Has not yet been corrected by State Department of Education.
- \* Data were included in Dorchester and Boston High.
- \*\* The Fenway returned the test booklets in separated, unscannable conditions. The booklets were returned to the school to be fixed. They were sent back by regular mail and were never received by the State's testing vendor.
- \*\*\* No results were reported because fewer than ten students were tested.
- \*\*\*\* Horace Mann Charter School.
- N/A - School had no students in the grade tested.
- # Updated with the corrections from State on 6/11/02.

1. Percentages may not total 100 due to rounding. Students who were absent from any subject area MCAS test without a medically-documented excuse were assigned the minimum scaled score of 200 and a performance level of *Failing* for that subject area. These results include regular education students, students with disabilities and limited English proficient students.
  2. The grade 10 Science and Technology test was suspended in 2001, instead History and Social Science was administered, but no performance levels nor scaled scores were reported.
- \* Data were included in Dorchester and Boston High.
- \*\* The Fenway returned the test booklets in separated, unscannable conditions. The booklets were returned to the school to be fixed. They were sent back by regular mail and were never received by the State's testing vendor.
- \*\*\* No results were reported because fewer than ten students were tested.
- \*\*\*\* Horace Mann Charter School.
- N/A - School had no students in the grade tested.
