As a part of Return, Recover, Reimagine: Transformative GPS Mentoring is BPS’ response to the devastating impact of the COVID-19 pandemic on the mental health of our students - especially Black, Brown, and Asian students.

-Dr. Charles Grandson
The problem to address today
## The Urgency of Now

**BPS**

1. Our model of supporting the individual needs for every and all students is in need of reimagining
2. Insufficient # of guidance counselors and other roles that provide individualized support.
3. All hands need to be on deck.

**Students**

1. Coming back from a pandemic!
2. All need more individualized support and an individualized plan to get back on track and accelerate
3. All students need an abundance of caring adults in community supporting their success
Struggling Boston teens find few support options, fueling record absentee rates

By Bianca Vázquez Toness Globe Staff, Updated March 10, 2021, 7:13 p.m.

“If I had had someone there to be with me during the school hours, I would have been more successful,” he said. “I just needed someone to tell me that I could do it.”
If you have missed online classes recently, why?

- My internet wasn’t working: 8,288
- Other: 6,528
- I was helping my family with something: 3,299
- I was sick: 3,042
- I didn’t feel like attending: 1,600
- A family member was sick: 1,060
- I did not have a computer to use: 883
- I’m not attending classes online: 207

Count of Responses
Student Challenges

Overall, students expressed challenges around
- Connecting with adults and fellow students at their schools
- Engaging in class and schoolwork
- Thinking deeply about race-related topics

(The table below includes questions that had less than 40% of students responding favorably.)

<table>

Even pre-pandemic data showed gaps in performance, absenteeism and graduation. We want young people to do more than recover...**we want them to thrive!**
We Need to Think Differently

“...

We have an opportunity to think and plan differently in this moment—to build a system that is responsive to the needs of the students it purports to serve. Doing so requires that we begin by listening to those young people and amplifying what they say they need, as opposed to what we as adults think they need.

Youth Designed and Led
Transformative Community Spaces

“We want to strengthen the community network by reinforcing and applying skills and values students take away from the Transformative Mentorship, all while creating space for open, insightful conversations.”

Accomplished through:
- Presentations from community members, current BPS students, or BPS graduates
- Student-led panels
- Mentors and mentees connections
- Students developing and sharing their My Career and Academic Plans
School Community

Community or Faith Group

Family and Friends

Child and young adult

Connected network
- Individual success plan
- Student-centered Self-directed
- Academic and Navigational supports

Problematic Macrosystem
- Historically Oppressive Ecosystem
- Unmitigated Systemic Barriers
- Failures to Reconcile Caused Harms

Problematic Macrosystem
Historically Oppressive Ecosystem
Unmitigated Systemic Barriers
Failures to Reconcile Caused Harms

What can we do RIGHT NOW to IMMEDIATELY respond to our young people?

What are we building RIGHT NOW that will Reimagine BPS and reconcile harms over the LONG TERM?
Middle grades problem:

1. Middle grades are make or break years according to studies

2. Our 6-9 students can change schools every year due to BPS configurations and other circumstances.

3. We are moving to a 7-12 model, students in grades 6-9 will need to be supported to enter high schools.
One way we are working to address the problem
#1 Addressing what we need for now and later

#2 Building on what heroes within BPS and the community have already built

#3 Individualized support for all students (using a mentor mindset)
Development Phases

2020
- MBK Allocation Announced

April 2020
- Strategic Plan
- Pandemic Planning and implementation followed
- Racial Equity Analysis and Community Equity Roundtables
- Identification of best practices

January 2021
- Decision to Launch Transformative Mentoring Model

March 2021
- Development, prototyping, pilot
- Community Engagement and Partnership

Summer 2021
- Full Refined Launch and Expansion
- Racial Equity Planning Tool
TRANSFORMATIVE GPS SYSTEM

Implementing a student-adult hybrid engagement model that empowers social and emotional, academic, career, and life planning competencies for future readiness

Through a combination of virtual and in-person, one on one and group interactions, workshops, and activities

Between learners in middle & high school and educators, school and district supporters, community members, and other experts and professionals that are committed to supporting them on their journey.

BPS Transformative Mentoring Support: A GPS Handbook

FOCUS: 6-9th graders

- Facing multiple transitions, configurations and closings
- Report feeling disconnected.
- Have had limited engagement in school.
- Described substantial difficulties to learning from home and need help problem-solving.
- Wellbeing challenged by recent events
- Priority: students facing serious academic transitions whose decisions at this time could have especially life-altering consequences. For example the reconfiguration of schools means 7 and 8 graders -used to middle schools - will enter a high school environment

ALL ADULTS on board

- BPS staff year 1, expanding beyond to families and communities
- A team that comes together to support transformative experiences for career and college planning with external support and resources (academic tutoring + TI)

Common commitments

- Training in
  - CLSP & Critical Mentoring
  - SEL & CLSP (Transformative SEL)
  - Career and Academic Planning
- Will provide coaching one-to-one, in small groups, or in larger circles.

ANCHOR GOAL 1
BPS Graduates will be ready for success in college, career, and life.
PRIORITY 1.1:
Ensure that BPS policies, plans, and budgets advance the OAG Policy so that all of our schools are equitably resourced to provide robust academic programming and social emotional supports, giving every child what they need.
THE GPS MODEL

I am.

Transformative Awareness

CLSP

I will.

Transformative Relationship

My Plan

Transformative Access

I can.

I belong.

Excerpts from James Baldwin: A Talk to Teachers (1963)

“Now if I were a teacher in this school, or any Negro school, and I was dealing with Negro children, who were in my care only a few hours of every day and would then return to their homes and to the streets, children who have an apprehension of their future which with every hour grows grimmer and darker, I would try to teach them—I would try to make them know—that those streets, those houses, those dangers, those agonies by which they are surrounded, are criminal. I would try to make each child know that these things are the result of a criminal conspiracy to destroy him. I would teach him that if he intends to get to be a man, he must at once decide that his is stronger than this conspiracy and that he must never make his peace with it. And that one of his weapons for refusing to make his peace with it and for destroying it depends on what he decides he is worth.”

“The paradox of education is precisely this—that as one begins to become conscious one begins to examine the society in which he is being educated. The purpose of education, finally, is to create in a person the ability to look at the world for himself, to make his own decisions, to say to himself this is black or this is white, to decide for himself whether there is a God in heaven or not. To ask questions of the universe, and then learn to live with those questions, is the way he achieves his own identity. But...[w]hat societies really, ideally, want is a citizenry which will simply obey the rules of society. If a society succeeds in this, that society is about to perish. The obligation of anyone who thinks of himself as responsible is to examine society and try to change it and to fight it—at no matter what risk.”
“It is those who are successful, in other words, who are most likely to be given the kinds of special opportunities that lead to further success. It’s the rich who get the biggest tax breaks. It’s the best students who get the best teaching and most attention. And it’s the biggest nine- and ten-year-olds who get the most coaching and practice. Success is the result of what sociologists like to call “accumulative advantage.”” - Malcolm Gladwell

“Superstar lawyers and math whizzes and software entrepreneurs appear at first blush to lie outside ordinary experience. But they don’t. They are products of history and community, of opportunity and legacy. Their success is not exceptional or mysterious. It is grounded in a web of advantages and inheritances, some deserved, some not, some earned, some just plain lucky—but all critical to making them who they are. The outlier, in the end, is not an outlier at all.”
Transformative Access

Academic Mentoring & Tutoring

In this unique moment in history, when we are faced with the realities of the twin pandemics of COVID-19 and a racial reckoning across the country, prioritizing the social, emotional and instructional needs of Black and Latinx students and their families in the most culturally affirming manner is at the forefront of our work. BPS will offer Academic Mentoring/Tutoring to students who need it the most.

High School Senior Internship in Education Program

Between now and June 2021, DESE is funding the Boston PIC/MassHire Workforce Board to:

- offer high school seniors the opportunity to complete a paid work-based learning education internship;
- accelerate the growth of the teacher pipeline in MA with a particular focus on increasing racial/ethnic diversity; and
- improve educational outcomes for underserved students, particularly younger learners, due to the pandemic.

Thompson Island programs blend academics with adventure to create social-emotional learning experiences that allow students to discover who they are and all they can become.
Breakout Room Discussion

Based on what you’ve heard, what else should we consider to ensure that all of our students get what they need to stay connected and to accelerate their learning as they prepare for college and/or career?
Racial Equity Planning Tool and Analysis: Next Step
