★ Additional recommendations?
Progress since our last meeting

- Public comment post-Commission: May 13, May 27, June 10, June 24, July 1
- Community Equity Roundtable info or discussion: May 21, June 4, June 18
- Community meetings scheduled: June 21, June 29
- **School Equity Roundtable: ESSER Meeting 1** launched
- School Equity Roundtables launched now through the month of June
- Currently scheduling meetings with task forces, community groups May-June
- Sample engagements to date: ELLTF, OAGTF, DELAC, BEAM, ABA, Faith-based groups, Supt. Parent Quarterly Meetings, Parents at St. Stephens, SSEC Student Committee, District Wellness Council
- Sample other upcoming engagements: BTU, MTSS Task Force, CPC/SPEDPAC/DELAC combined meeting
- Developing internal capacity and readiness to respond to formal internal proposal development and refinement process
- Keep updated at: [https://www.bostonpublicschools.org/Page/8648](https://www.bostonpublicschools.org/Page/8648)
II. REFINING OUR APPROACH (75 minutes)

A. Reflection on District Needs and Barriers  
B. Feedback on Focus Areas (Guardrail 4): Discussion  
C. Feedback on Allotments (Guardrail 3): Discussion
Reflection on District Needs and Barriers

Return Recover & Reimagine Addendum Documents

➔ BPS Strategic Plan
➔ Return Recover Reimagine Engagement to Date
➔ DESE District Review
➔ BTU Wiki Wisdom Report
A team of independent consultants contracted by DESE conducted a comprehensive review of the district in the fall of 2019. As part of the district review, a team of professional classroom observers conducted observations of instruction in 989 classrooms in 100 Boston schools.

The review resulted in numerous Findings and Recommendations for the district to address, highlighting substantial areas in need of addressing with significant consequences for current and future generations of Boston children.

The challenge to the district is to support educators and students in schools with the opportunities and resources that they need to thrive as teachers and learners, and to build the district’s and schools’ capacity to exercise the high standards of practice that the school committee and the district leadership have embraced in its strategic plans.

Read the BPS District Review here

While the report identifies many significant issues, these were identified as the most concerning:

- **Special education.** The report notes the district’s special education services are in “systemic disarray, [and] do not provide appropriate learning opportunities in the least restrictive environment for all students with disabilities.”
- **English learners.** The district has not created equitable conditions to ensure that all English learners progress both academically and in English language development.
- **Curriculum and assessment.** Curriculum guidance is scant, model curricula do not align to the state standards, and assessment is varied and allows the district little ability to track school performance across the district.
- **Support for principals.** Principal turnover is significant and principals in particular express a fundamental disconnect between the activities of central office and the support they need to do their best work for students.
- **High school.** High school graduation requirements vary by school, and inequities exist in access to advanced coursework. Chronic absenteeism is staggering, particularly at the high school level.
- **Facilities.** The condition of some school facilities is poor and, in some cases, facilities do not meet basic student needs, contributing to sub-optimal learning environments.
- **Transportation.** Parent frustration with the longstanding and worsening challenge of poor on-time bus performance is significant, and the amount of lost instructional time is a major concern.
- **School autonomy model.** The autonomy model expanded under former Superintendent Carol Johnson has not been effectively monitored to ensure that only those schools with strong or improved performance receive these flexibilities.
- **Trust and confidence in central office.** Teachers and administrators report little to no confidence in a central office that experiences constant turnover. When central office attempts to provide guidance and structure, it consistently fails to follow through.
WIKI wisdom report

Question staff members responded to:

Based on your experience with BPS, and especially this past year, we are looking for your ideas for re-imagining what school could be. If there were no bounds, what would the ideal learning experience be like for our students?

Read Re-imagining Boston Public Schools here

Following a year of living through the COVID-19 pandemic and its upending of much of what school has looked like, leaders of Boston Public Schools and Boston Teachers Union reached out to their staff/members to gain insight into how the district might best re-imagine its schools moving forward.

In response, 201 members of the BPS education community joined a unique online conversation, the Boston Public Schools WikiWisdom Forum, between February 25, 2021 and March 25, 2021, and posted 113 ideas and 179 comments. Building on the online conversation, the Thought Leaders honed the posted ideas and developed the 7 recommendations and 40 proposed solutions included in this report, which they presented to BPS and BTU leadership on May 3, 2021.
Prior to COVID, only one-third of students in grades 3-8 were meeting or exceeding expectations on MCAS in ELA and Math. Incremental progress was made between 2017 and 2019, but achievement gaps persist.

** Academic Support includes (Tutoring, Virtual Learning Resources & Communication from Schools)
Immediate enrollment in college following high school graduation decreased by 8 percentage points from 2019 to 2020.

- Among BPS graduates in the class of 2020 (n = 3,434), 53% enrolled in college in the fall immediately after high school -- an 8 percentage point decrease from the class of 2019 (61%).

- While enrollment in both 2-year and 4-year institutions dropped, the decrease for 2-year institutions (6 percentage points from 17% to 11%) was double that of the decrease for 4-year institutions (3 percentage points from 44% to 41%).

Source: NSC Student Tracker for High Schools district report, run on 11/24/2020. The horizontal red line shows the average immediate enrollment rate for all institutions for the years shown (62%).
Average daily attendance has decreased during COVID. Groups experiencing a decline of 3 percentage points or more include Black students, Latinx students, students with disabilities, English learners, and economically disadvantaged students.

Source: DESE School and District Profiles. Data reflects September - March of each year.
Consistent with nationwide trends, there is an increase in course failures across all four core subjects and all racial groups.

Note: Data reflects grades entered in Aspen as of 3/23/21, for BPS secondary schools only. Tables at left shows the numbers of courses failed, not the number of students. Tables at right show numbers of students.
Perceptions of remote learning differed, according to Fall 2020 surveys of students, families and teachers.

- While 85% of teachers responded favorably to questions about classroom engagement, only 37% of students responded favorably to questions about classroom engagement.
- Only 31% of students surveyed responded that they felt ‘quite connected’ or ‘extremely connected’ to other students at school right now.
- 64% of Latinx families are satisfied with the way learning is structured. This compares to between 51-57% of other families. Of those who did not disclose their race, only 40% are satisfied.

Families are interested in having the option of a fully virtual school for SY21-22.

A family survey was conducted in April and May 2021 to understand interest in a fully virtual school for SY21-22. 3,208 families responded. Because the survey was anonymous, demographic information is self-reported.

Our Ongoing Discussion

After seeing the reality of the district and after a year of pandemic, where should the effort go?

➔ Do we have the right focus areas?
➔ Too many, not enough?
➔ What's missing, what should go?
➔ What’s most important year 1 2 3?

Should we determine allotments in advance or let the investments drive allotments?

2021 FEDERAL RELIEF FUNDING

BPS is expecting $400M via the Elementary and Secondary School Emergency Relief (ESSER) Fund.

Grounded in the community-driven strategic plan, BPS will invest these one-time federal relief funds to return well, recover strong, and reimagine what’s possible for our students.
