**Standardized Climate Scores Compared to the District**

Your school’s standardized score indicates the extent to which your mean score deviates (positively or negatively) from the district average. It is a way to compare how well respondents at your school rated each variable compared to other respondents across the district.

**Standardized Climate Scores Compared to High**

Your school’s standardized score indicates the extent to which your school’s mean score deviates (positively or negatively) from the average of all similar schools (elementary, K-8, middle or high schools). It is a way to compare how well respondents at your school rated each variable compared to respondents from similar schools.
